

The Joint Replacement Center at Grand View Hospital AND Upper Bucks Orthopaedics & Sports Medicine

Grand View Health and Upper Bucks Orthopaedics & Sports Medicine are committed to excellence in joint replacement care through Grand View's Joint Replacement Center. The center is dedicated to the prevention, diagnosis and treatment of diseases and injuries of the musculoskeletal system, which includes joints, bones, tendons, muscles and nerves.

For patients requiring joint replacement surgery, Upper Bucks Orthopaedics' affiliation with the Joint Replacement Center blends the practice's board-certified surgeons with Grand View's nationally recognized Joint Replacement Center Coordinator and its specially trained team of nurses, physical and occupational therapists. Together they help patients return to a more active lifestyle, with less pain. Patients are often out of bed and walking on the day of surgery. Length of stay is typically 2 days.

Committed to safety and quality, the Joint Replacement Center has earned the Gold Seal of Approval™ from The Joint Commission for both its total hip and total knee replacement programs.
